- COMPUTER & TECHNOLOGY SALES & CONSULTING

- SYSTEMS & SOLUTIONS INTEGRATION

- DATA RECOVERY

- DATA MIGRATION

- LEGACY HARDWARE & SOFTWARE SUPPORT

Key Private-Sector Clients

Boeing Satellite

Litton-Guidance Systems

Northrop-Grumman

Core Capabilities

- Integrated hardware and software solutions
- Computer and technology hardware planning, provision and supply
- Support for legacy hardware and software platforms
- Data recovery and migration

Why Work With Us

- Our strategic alliances with most major computer technology manufacturers allow us to **deliver mission-critical technology on-time** and within your budget.
- We have access to more than **400,000 different types of computer and technology equipment**, including many legacy and discontinued products.
- We support **more than 3,500 backup platforms** – any format from 1970 to today. We are not reliant on any native hardware or software.
- We can **process any data, email or voice tape anywhere in the world without risking your data security or privacy**. We are industry experts in non-native tape restoration and work with a large in-house collection of drives and systems.
- Our services are available either **onsite or off-site**.
- Our experience working with government agencies and contractors means we know how to properly **navigate procurement processes** and requirements.
- As a small business with **global reach and international experience**, we **provide personal service**, while being able to access products from anywhere you require.

Past Performance

Service: Since 2013, supplied Tobyhanna Army Depot with a wide range of HP printer and computer parts. Total value of these purchases has exceeded $250,000.
Results: This US Department of Defense Agency was able to continue to operate and maintain important IT infrastructure equipment.

Service: Recovered important data for NAVY/NAVAIR from magnetic tape media that was more than 25 years old.
Results: NAVY/NAVAIR gained restored access to critical technical data documentation for major military equipment.

Service: Supplied legacy computer data storage system to Boeing Satellite (El Segundo, CA), working with Boeing engineers to integrate and perform equipment quality certification and acceptance testing.
Results: Boeing Satellite was able to fulfill its order to expand an international client's satellite tracking and management computer system.

Company Data

- 30-year old company – founded in 1994
- CEO with more than 40 years of IT experience
- Incorporated and based in California
- 6 full-time employees and multiple technology partners
- 70,000+ domestic and international customers served
- Member, National Association of Government Contractors (NAGC)
- GSA MAS Contract: 47QTCA19D00MM (Expires 09/26/2024)
- GSA schedule: GS-35F-0121S
- CAGE: 1EAX6
- DUNS: 878297118
- **NAICS Codes:** 423420, 423430, 423690, 424120, 449210 459510, 541512, 541519, 611420, 811210
